# VOTE FOR CHANGE

# OSV

## 10 PRIORITIES OF THE CSV

### MORE PURCHASING POWER

- Inflation adjustment of the tax table in several steps.
- Broadening of tax brackets.
- Increase of the tax entry amount – also for single parents.
- No inheritance tax and no wealth tax.

### MORE SUPPORT FOR YOUNG FAMILIES

- Improve the work-family balance through the right to four unpaid parental hours per week for parents of children of primary school age.
- Tax starter kit for young professionals with allowances during the first years of work.
- Development of care structures.
- Financial support for parents who do not place their children in a care structure until compulsory schooling age.

### MORE HOUSING

- Build more, faster and in some places higher and denser.
- No environmental compensation measures inside the building perimeter.
- Speed up procedures through binding deadlines and by reducing the number of impact studies.
- Support private actors to invest in the construction of rental housing.

### CLIMATE CHANGE AND MORE RENEWABLE ENERGY

- Yes to the EU's climate targets.
- Massive expansion of renewable energies by 2030.
- More efficient procedures for the energy transition (fast-track procedures).
- A „guichet unique“: a one-stop shop for environmental applications and permits.

### A COMPETITIVE ECONOMY

- Increased support for small and medium-sized enterprises and trade craft businesses and for self-employed entrepreneurs.
- Redesign of working time organisation through social dialogue.
- Maintaining the competitiveness of the financial centre and the industry.
- Strengthening agriculture, viticulture and sustainable food production.

# THE BEST CHOICE FOR OUR ELECTORAL DISTRICT

EACH VOTER HAS 7 VOTES.  
TO SUPPORT THE CSV YOU CAN:

**01** either fill in or make a cross in the white circle in the box above CSV list 4. At this point you have given all your 21 votes to the CSV and cannot give any more votes to one or more candidates, otherwise your voting ballot will be invalid.

**02** or give 1 or 2 votes to the candidates on CSV list 4 without distributing more than 7 votes. If you distribute votes to the candidates on the CSV list, you may no longer fill in / make a cross in the white circle in the box above the list, otherwise your ballot paper will be invalid.

## CSV LIST 4

Léon GLODEN		
Max HENGEL		
Ricardo MARQUES		
Octavie MODERT		
Raphaël SCHMITZ		
Rita WALLERICH		
Stéphanie WEYDERT		

### BETTER HEALTHCARE

- More medical centres with 24-hour operation across the country.
- More out-of-hospital medical practices with the necessary medical equipment (e.g. MRI).
- Expansion and improvement of emergency health-care throughout the country.
- More prevention.

### MOBILITY FOR ALL AND EVERYWHERE

- Relieve congested towns by building bypasses.
- Extension of the tram network to the neighbouring municipalities of Luxembourg City.
- Use of trains with higher passenger capacities, presence of security personnel and better connection to the international railway network.
- Nationwide development of continuous bicycle and pedestrian routes.

### MORE FREEDOM THROUGH MORE SECURITY

- 700 additional police officers.
- More police presence, less administrative work.
- Video surveillance at hot spots.
- Faster court proceedings in case of flagrant offences.

### A MODERN PUBLIC SCHOOL

- Realignment of language instruction with more flexibility and choice for the student.
- Introduction of real homework help in primary school, which is more than just supervision.
- Breaking up the classical sections in secondary education with more choices between different major and minor subjects.
- Strengthening vocational education by creating new perspectives in the form of dual university education.

### THE DIGITAL STATE

- Accelerate the digitization of all administrative processes.
- Introduction of the „only once“ principle with the aim that citizens and businesses only having to transmit certain information to authorities and administrations once.
- Tax incentives for companies in the digital transition.
